

Tic Tac Toe Trivia

How To Play:

1. One Individual gets to be an "X" while the other gets to be an "O". Do a coin toss to figure out who gets to start first.
2. Whoever lost the coin toss will be reading the trivia question to the other person.
3. The person answering the question gets to pick the category: Geography, Science, Art and Music, Presidential History, Pop Culture.
4. If the person got the question right, he or she will get to put their mark on the grid. If the individual gets the question wrong, the question gets thrown out and they switch places.
5. This will continue to happen until one individual gets three in a row horizontally, vertically, or diagonally.
