

Design a Birdhouse

A Little Bird that starts with
an Arrow

It's spring! Birds are building nests and flying everywhere.

This art project is about birds. First you are to design a very special house for your bird. Use any colors or shapes or patterns on your birdhouse. You can even collage on it.

Then on a separate piece of paper draw your bird. You can follow the directions above or look at a bird photograph and make your own bird. It can be a real bird, or a fantasy bird. Have fun! Be creative.

When the bird is complete, cut it out and glue it on your birdhouse.

You can even cut out the entire birdhouse and bird picture and glue it to blue construction paper for a background. Draw trees and a landscape and make your picture look like spring!
